

might probably be supplied by some of the herbs of the Country which you can procure fresh -

346 *Hordeum Gallicum* and *Perlatum* (No. 14) We have reduced these two Articles for reasons that will appear obvious upon inspecting the list before mentioned, and we would propose as a question whether their place would not always be better supplied by Rice as Barley in any shape sent from the Country will be apt to turn musty before or shortly after its arrival in India.

347 James's Powder (No 15) your usual supply of this Article has been 200 Papers or Packets, the quantity contained in one Pound is 192 Packets, the Indent is for twelve Pounds equal to 2304 Packets or twenty times your present annual expenditure and being of opinion that there must be some error in this particular

we

we have ordered two Pounds of James Powder to be provided and we have further added six Pounds of the Pulvis Antimonialis a medicine supposed to be the same as James Powder, in these alterations we have not allowed the expense of James's Powder (though very considerable) to influence us in making the before-mentioned reduction.

348 We have in making these reductions taken it for granted that your statement of the quantity of Medicines remaining in store is taken from actual observation and not from accounts of Balances of the receipts and issues of stores which when continued for several years may perhaps prove erroneous in some instances, if not corrected by examination with the weights or quantities of the several Articles actually in store -

356 Your Dispatches in the Military Department of the 2^d January and 10th and 13th of August 1799 were received on the 18th of January last to which we shall reply by a subsequent conveyance. Previous to the receipt of those letters we had received overland your separate Dispatch of the 4th of August 1799 in the same Department on the subject of the distribution of the Treasure and Jewels captured in Seringapatam, upon which the following observations occur -

If an opinion has been—
entertained that in consequence of—
Seringapatam having been taken by
assault, the Booty Captured does of—
right belong to the Captors without any
controul whatever, we feel it incum-
= bent upon us to declare that such
opinion is founded in error.. Most
unquestionably the property taken
by

by the joint operations of His Majesty's
and the Company's Forces is by law in
all cases at the disposal of His Majesty
In giving this opinion we desire it
may be understood that we enter-
tain the highest sense of the tran-
scendant merits of the gallant--
army which achieved the capture
of Serungapatam, and that their
services deserved the reward they
have received. From a due conside-
-ration therefore of all the circum-
stances stated in your before-men-
-tioned Dispatch, we approve of
the determination of the Governor
General, under the responsibility
therein expressed, to authorize the
Commander in Chief to make an
immediate distribution of the
Treasure and Jewels to the Troops
of the Allies in such proportions
as

as might be conformably to the —
usage of the British service in
cases of a similar nature, and we
have no doubt that the humble request
which we are preparing to lay before
His Majesty, that he will be pleased
to afford his Royal sanction to the
distribution, will be most graciously
complied with —

358 With respect to the
Ordnance Ammunition, and Military
Stores (including Grain) captured
at Srungapatam, it is equally —
clear that they do not belong to
the Captors though it may admit
of a question, whether they are
the property of the Crown or the
Company. As soon as this point
shall be decided, and the value
of the stores reported to us you
will receive our further directions
upon

upon the subject

By General Harris
Minute of the 22nd October 1798. we
notice the receipt of a Plan, enclosed
by

to Lord Cornwallis upon the conclusion
of the preceding War against the late
Hijabodtun, for settling some of
this useful class of it in some, in some, in some,
inhabit the interior part of the Penin-
sula as inhabitants in the Baruma
hill in consequence of which the
General supposes that similar incor-
poration would induce the settlement
of this sort throughout the Company's
Territories, particularly in the North
Borneo, where their Blacklocks are &
speasable times would for constant
employment in carrying Copper and
Salt from the Company's Districts
and returning from those of the Nizam
credited with C. H. & Co. From the
opinion which we entertain, in
your policy of the, we suggest
our by General Harris, we recommend
it to your consideration

of a subsequent date to the Letter to which
 we are now replying, we observe that
 Captain Syme is now appointed to the
 separate charge and superintendence
 of the Burying upon an allowance of
 (100) one hundred Pagodas of monthly
 the least that upon the return of
 the Troops to Garrison or Cantonment.
 This allowance was discontinued as
 no longer necessary.

(51 & 60) Extension
 of the Service
 of the Contract
 discussion of the
 proposition for
 granting, instead
 of the Allowance
 with the
 officers

For the reasons which
 have been stated, and after perusal
 of your proceedings upon this subject,
 we approve of the extension of the
 Service Contract to the 30th of
 March 1800 as advised in the 18th
 Paragraph of your *Military* Letter
 dated the 13th August last - We
 attended to your resolution of the
 18th of December 1792 expressive
 of

at your satisfaction at the 'real' and
readiness which Mr. Lane has shown
to do his duty for the public service.

But still we have no reason to
doubt that this gentleman's conduct
in the execution of his contract, and
in its already much extension
from time to time in the provision
of the extra number of 10 is required
was very meritorious; yet as the
emergency in which you were induced
to agree to an extension of his contract
so much beyond the scope of his
original agreement no longer exists
we trust that at the expiration of
the last period of extension April
1861 we shall be informed that
you admit and are fit to proportionals
in contract for the provision of 20 birds
in the usual manner.

We are much pleased
with the deliberate consideration
which

which the Military Board has given
to the questions you proposed to them
whether any improvement could be made
in the provision of Camp Equipage; and
how far constant Tent Allowance to
the Officers would be of advantage to
the movement of the Army. The able
discussion of this Subject by that Board
in their Letter of the 3.^d December
1798. has perfectly satisfied our minds
that the mode of Supply by Contract
is the most eligible that can be
adopted. And although in their an-
swer to the second question they
think that Tent allowance to all
the Officers, Kings and Companies
serving under your Presidency would
be of advantage to the movement of
the Army, we are decidedly of an
opinion, that on account of the
considerable additional expense
(estimated by the Military Board
at

it also come back and a half of Pagodas
of currency which would be the conse-
quence of granting such allowances
even if no doubts were entertained
whether this measure would tend
to render the Troops more efficient
it ought not to be adopted—Whatever
decision therefore the Governor
General and Council may come
to upon the subject in consequence
of the reference which has been
made to them we direct that no
alteration be made in the present
mode of furnishing Tents for the
Officers and Men either of the
Bangs or of the Forces either
in the Field or otherwise without
our previous approbation.

Pag: 22,112

37 The two first Article are
conformable to our orders of 31st July 1787.
but as to the latter we conclude it is
inserted under the Idea that this Allow-
ance having been sanctioned in the
96th Part of our Military Letter of 20th
June 1797 to General Blake, was to be
continued to his Successor but we
must observe that in your Letter
of

of the 11th August 1796 to which the above was a reply it was expressly stated that the allowances were granted to General Clarke, he not being in receipt of any Salary as a Member of Council: in that capacity his Salary would have been fixed at 15000 £^l Annuum as stated above; of course it could not be drawn by any future Commander in Chief who was in the receipt of a specific Salary as a Member of Council.

52. We take it for granted that the Circumstance here noticed is merely an error in the Statements, but if otherwise we direct that it may be corrected by General Harris reimbursing the 1250 P^{rs} Month drawn by him as a Member of Council.

53. By our Separate Military Letter of the 8th January 1796 the Salary of your Military Auditor General was fixed at 7500 £^l Annuum in addition to the pay of his Rank; but on referring to the Statement of your Military Establishments, We find that not only the pay but the Rate of the Rank has been allowed in addition to the Salary above mentioned.

54. We apprehend from a perusal of the late Military Auditor General's Letter

of the 1796th this originated in the directions given in the separate Letter above mentioned for allowing half batta to the Officers of your Establishment in general and to Captain's of Regiments &c. full batta constantly, your present Auditor being of the latter Rank. Regimentally as we suppose, accordingly allowed full Batta

55th That as in our orders relative to the Salary of this Office we expressly confined the addition to be made thereto to the pay only of the Ranks the allowing batta taken as a deduction from their orders and we should therefore be justified in insisting upon the amount being refunded.

56th But on comparing the Allowances now drawn with these the Auditor General would be entitled to Regimentally if not holding the Office; we find that after deducting the latter the Emoluments of the Staff appointment will be about Pagodas 2650 &c. Annam in consideration therefore of the importance of the Office

Office the increase of its duties by the Augmentation
of the Army and the favorable opinion you have
expressed of General Lydenhams exertions in
discharge of those duties in which we coincide, we
have resolved that the Salary of 7500 Pagodas as
Auditor General shall be continued in addition
to the Allowance he is entitled to Regimen-
tally and on this principle the Office is to be
continued in future -

Major General

Your advice and proceedings
relative to the Meeting of the European
Artillery at the Mount, and the
removal of Major General Giles from
that command have been attentively
considered. The Origin and Progress
of the Meeting having been enqui-
red into by a Board of Officers, to

28 With respect to the conduct of
Major General Geels after his removal from the
command, particularly in bringing forward an
representation from the Junior Officers of his Corps
entirely subversive, as you have very justly remarked
of order and discipline, we have to signify our furthest
disapprobation of your resolution removing him from
the Staff and suspending him from the Service—

39 It were to be wished that the subse-
quent conduct of Major General Geels had been
such as to incline both us and you to a favorable
consideration of his case, instead of producing a
resolution of your Board deciding to hold any further com-
munication with him—It is impossible for us to review the
conduct of this Officer in the various instances of
insubordination and disrespect of Authority that
appear upon the proceedings dangerous in themselves
and pernicious in their consequences as affording
an ill example to others without expressing our
entire disapprobation thereof—In consideration
thereof of his services we have agreed to

permit him to draw the pension allowed to Officers of his rank retiring from the Service to commence from the time of his leaving India which we direct he may be ordered to do by the first convenient opportunity after the receipt of this Letter -

67 We have appointed M^r. We have permitted the following Military Officers to return to their Ranks on your Establishment viz

Major General Duguid Campbell

Major John Long

Lieut. Robert Gregson

John Stuart

3

We have permitted Colonel Alexander Wynd to retire from our service and will therefore discontinue his name in the list of our Army on your Establishment

4

We have permitted the following Military Officers to remain in England until next Season viz

Lieutenants Henry Harcourt Lorrano

[Corps of Engineers]

" Joseph Coupland

" John Gourlay, Corps of Artillery.

5

We have also granted the like permission to Mr. Francis Duncan a Surgeon on your Establishment

6

The General Officers and Colonels of Regiments who came home under the Regulations of January 1796 having addressed us on the alteration in those Regulations so far as concerns them by the subsequent orders contained in our separate despatch of the 5th July 1798 and requested to be relieved from the operation of those orders, we have thought proper to consider in part with their request and have agreed that such of the General Officers or Colonels as above mentioned as have not returned from the service in which they were engaged with the receipt of their pay and off Bickham's during two years and a half's Furlough from the time they left the Presidency to which they belonged or any other of the Company's Settlements where they may have been in actual Service

(But if under the contract remaining with us we shall think proper to order any of those Officers to return to their duty before the

the expiration of that period and they shall decline so doing we have determined that neither their pay nor offreckonings shall be subsequently authorized.

8 With respect to the General Officers or Colonels who have addressed us on this subject but have since retired from the Service and will not therefore enjoy their offreckonings for two years and a half before their retirement is notified in our general Orders in India. We have agreed that they also shall be allowed their offreckonings for two years and a half from the time of their quitting India as above -

9 But as Colonel Alexander Wynne of whose retirement you are advised in a preceding Paragraph will have received his offreckonings for more than the above period previous to his retiring - His offreckonings are to cease from the date of his receiving our permission to retire viz! the 22^d January last -

10 We have also resolved that if any of the General Officers or Colonels who have addressed

discharged us and have not already retired from
their Service should retire before the end of two
years and a half. Surrough as above the off-
Reckonings of such Officers shall cease from
the time of their retirement.

11 Captain Allan having applied
to me to make his Allowances as Captaining
the Corps of Guides equal to those drawn
by his Predecessor at that Station, Major Beaton,
we have in consequence of the strong and re-
peated testimonials in his favor and the high
sense we entertain of his very extraordinary and
valuable & strenuous exertions as well from the
Testimonials as from an examination of the labor-
ous and voluminous Geographical Surveys,
which he has laid upon us, agreed to comply
therewith and accordingly direct that you
pay to Captain Allan's Attorneys whatever sum
may be due to him on this account taking care
however to deduct therefrom the temporary
additional Salary of £100 one hundred Pounds
per month allowed him whilst employed as
surveyor

surveying the Baramahal -

12. As the Corps of Guides is now upon a reduced Establishment we are of opinion that the present allowances to the Officers commanding it are sufficient for the duties to be discharged, and therefore direct that they be not in future exceeded on any pretence, whatever.

13. We have permitted Mr Daniel Russell to proceed to your Presidency as Passenger on the Earl Spencer for the purpose of his being appointed a Cadet on your Establishment upon his attaining the Age prescribed by Act of Parliament you will therefore cause him to be so appointed upon his producing the necessary Certificate or Affidavit of his Age & assign him his Rank accordingly. Having observed that in some instances Officers who had received the benefit of the regulations respecting furlough had, soon after their return to their duty in India applied for and obtained further furlough, we directed that the pay to such officers should be withheld after three years in receipt of such pay, unless in cases of certified ill health.

3

As the regulations do not appear to have been understood by the Government in India in the manner above stated it may seem a hardship in some instances to Officers who have been permitted to come home on a second furlough under an implied sanction for drawing their pay if they are not allowed such pay during their second furlough altho the pay altogether drawn may not exceed three years. But in order to prevent the
regulation

regulations from being misunderstood in future we have resolved that no officer who has drawn three years pay on furlough shall be allowed any further pay on being permitted to come home again or, hereafter, until he is again under the provisions of certificates.

4 We have permitted Major Thomas ~~Payson~~ of your Establishment to return to his duty without prejudice to his rank in our service -

5 We have permitted Lieutenant ~~Stapin~~ ~~Longland~~ of your Establishment to return from our service on the half pay of Ensign -

6 We have likewise permitted Mr. Charles Egbert Surgeon on the Madras Establishment to retire from our service on the full pay of his rank

7 We have permitted the Rev Benjamin Millington to retire on half pay from his situation as a Chaplain on your Establishment

8 Having been impracticable to accommodate the whole of the cadets proceeding to your Presidency in the season 1799/1800 - on the
- Ship

ships consigned to Madras several of them took their
passage on the Bengal Ships whence they will
be directed to proceed to their duty by the earliest
opportunity -

9 Is this did not arise from any
fault in the Cadets who took this circuitous passage,
but merely the want of accommodation on the Madras
Ships, we agreed to allow each of them the sum
of twenty Pounds to defray the expense of, proceeding
from Bengal to your Presidency, and we further
consented to their drawing this, say, (but no
other allowance) from the arrival of the Ships in
Bengal to the arrival of the Cadets at your Presidency
provided they used every possible dispatch in
proceeding to their duty at Madras -

We also resolved that the period of
their service might be considered as commencing
from their arrival at Bengal -

10 The passage money may either
be received at Bengal or at your Presidency
as the Cadets prefer, you will of course be
furnished with Certificates from Bengal of any
Payments

Payments made there on this account for the Cadets -
belonging to your Presidency -

11

And as some of the Cadets for Bombay were for the same reason obliged to proceed on the ships bound to Madras the same rules are to be observed respecting them on arrival at your Presidency

Enclosed you will receive a copy of an order of His Majesty's most Honorable Privy Council licensing the Company to export sundry garrison, ordnance and Naval Stores and also provisions, and directing the return of certificates for those landed: you will therefore be careful to furnish us with the certificates which are required of such stores as shall be landed at your Presidency, that we may avoid the heavy penalties to which we are liable, if the Bonds given to the crown on this account should be put in suit, taking care that the certificates contain an exact copy of the Indorsement of the packets sent by the Ships wherein such stores are laden, and not the particular contents

(21832) Removal of

from Pondicherry

In the 28th Paragraph of
our Letter in this Department of the 7th
May 1800 we signified our approbation
of the Plan having been engaged for
the purpose of conveying to Europe a
number of French Prisoners and
Inhabitants of Pondicherry whose
removal, at a most critical juncture
had

had become absolutely necessary - The
proceedings referred to in the Paragraphs
before us, convey that the measure was
carried into execution with every possible
degree of humanity to the Prisoners
themselves and to the Families of
such of them as were necessarily left
behind - and although we took occasion
in our beforementioned Letter to remark
that nothing but the most absolute ne-
cessity could have warranted the
putting on board a single Ship near
six hundred Prisoners many of whom
were of the most desperate Characters -
we are nevertheless perfectly satisfied
from the documents which accompanied
the Governor General's Letter to our
Chairman of the 25th October 1799 -
that the Triton was fully competent
to the convenient accommodation of
that Number, notwithstanding the
great mortality which appears to
have

have unfortunately taken place among them and that a most ample Stock of Provisions, Stores and Medicines was provided for their uses on the Voyage:-

Military Department.

Our Governor in Council
at

Fort St. George.

Para 1st Our last letter to you in this
Department was dated the 10th June, 1801 -

Answer to the Letter in the Military Department,
dated 22nd January 1800 -

Para 1) Mentioning the
date of their last Letter
and advising the receipt
of the Court Orders of the

2Q 14 In answer to the
Court's Letters of 15th March
and the 29th May

15Q 20 Delay of Lieute-
nant Colonel Brown in
Command of a Detach-
ment to the Southward
in effecting a junction
with Lieutenant Col
Reade's Detachment, for
the purpose of escorting
supplies to the attack
on Seringapatam -

3.

We have perused the Papers
referred to in General Harris's Letter of 7th July
1799, relative to the delay of Lieutenant Col
Brown in Command of a Detachment
to

to the southward, in effecting a Junction
with Lieutenant Colonel Read for the pur-
-pose of escorting supplies to the Main-
Army before Srirangapatnam. From what has
been stated by the General, it certainly be-
-hoves Lieutenant Colonel Brown to enter-
-into an Explanation of his conduct on
that service upon the points detailed in
your Secretary's Letter to that Officer of the
4th September 1799. - We therefore direct that
he be called upon for an explicit reply to
that Letter. - If this necessary Explanation
shall be longer delayed Colonel Brown must
be suspended the service -

21 & 25 Conduct
of Major Read as
Commander of forces
to the Main Army

Our Direction on this sub-
-ject will be communicated by a subsequent
Conveyance. -

26 & 31 Compensation
to the owners of that
locks serving in the
late Mysore Camp
foreign

5.

In signifying our concern
in the propriety and equity of your determination

for

for allowing an additional compensation to the Bullock owners in reward of their good conduct and exertions during the late Service, we cannot avoid expressing our surprise, at the delay which has arisen in carrying that determination into effect on account of the principal Agent, Colonel Dallas not having brought forward at the first, certain claims on the part of the head owners, and of his Native servant acting under him, though he had been previously called upon to furnish the Military Board with every information in his power upon the subject. We will not impute to Colonel Dallas any sinister motive in the claims which he subsequently advanced in favor of his Head servant Nencata Ranyam and the principal owners; but we cannot avoid remarking, that the proceedings of the Military Board upon that

that occasion, seem to have led to a discovery, that during the late Campaign the spirit of the regulations for the Bullock Department had been totally lost sight of. - The very able manner in which the whole subject is discussed in Mr. Petrie's Minute of the 14th Novr 1800 has rendered it unnecessary for us to enter into a minute consideration thereof. - We have only therefore to signify our approbation of your Instructions to the Military Board of the 21st March, and of the advertisement which accompanied them, containing your final determination of the manner in which the compensation to the Bullock Owners &c. is to be adjusted; and we trust with you, that from the able and impartial exertions of the Military Board upon this occasion
much

much advantage will arise to the service in the future equipment of our Army, by uniting the public Interests with the Interests of those who may be engaged as the future Conductors of the Bullock Department -

32. Allowances to officers not General on the staff commanding Brigades in the Field.

6.

We acquiesce in the allowances which you granted to the officers not being Generals on the staff who commanded Brigades in the Field during the last Mysore Campaign.

33. General Brathwaite relieved of the command on the occasion by the return of the Commander in Chief, but remains as Vice President of the Military Board.

7.

We have derived much satisfaction from the attention which General Brathwaite appears to have paid to his duty as Vice President of the Military Board -

34 & 35 Regimental Rank.

8.

We observe by the 43^d and 44th Paragraphs of this Letter, that you

you postponed the Establishment of Regimental Rank until the promotions arising from the augmentation to your Native Establishment took place, which has our approbation.

16 - The 1st Regiment
of Europeans completed by drafts from the 2nd and the supernumeraries of the 3rd drafted into the Battalion, instead of being sent, as first intended, to Berigala. -

9.

We approve of the arrangement advised in this Paragraph, it being as far as respects the Artillery, conformable to our recent orders on the subject.

27 - Army distributed into four regiments. -

10.

Needs no reply. -

38 & 42 - Augmentation of the Army

11.

Our orders with respect to the late Augmentation of your Army has been communicated to the Government General of Bengal. -

43 & 45 - Establishment of Regimental Rank postponed until Promotions consequent to the augmentation of the Army took place - of the first strike of the List - Request

12.

The first part has been already replied to. -

With

Instructions as to
names of some
there

13. With respect to the officers
which you advise in the 43rd and 44th Pa-
-agraphs of your Military Letter of the 22nd
January 1800, to have struck off your Ar-
-my List, we are to inform you, that
Major Thomas Clarke has retired from
the Service on the Half Pay of Captain as
already advised. -

14. You were directed to
strike Lieutenant Neman off your Army
List in the Paragraph of our Military
Letter of
Lieutenants John Carmuthers, Edward Ross
and P. W. Frazer died at Sea, as noticed
in your Proceedings of the 17th December
1799. - Lieutenants W. Murray and G.
J. Forbes, did not proceed according to
their appointments therefore are properly
struck

struck off Lieutenant Charles Gibbs was abroad when nominated a Cadet of the season 1793. as he had not appeared, you did right in striking him off the Army List.

15 But with regard to Captain James Cunningham, as he has been detained in Europe on service with our Volunteer Corps, we direct that he continue with his proper Rank on your Army List -

16 As to the Officers mentioned in the 45th Paragraph, Lieutenant Alexander Macleod has been pensioned on the Military Fund. George Lang Junior and Henry Harrison, received Orders to proceed, but as their names do not appear on the Ship's Journals on which they were directed to embark, it is supposed they have declined

declined their appointments, and may there-
-fore be struck off. George Spry we have
not received any information respecting
him, since his arrival in Europe, on the
account mentioned in your Proceedings
of 10th December 1799. you will therefore
for the present continue him on the Army
List.

46243. Relief of the
Native Troops stationed
on the Molucca Islands

We approve of your pro-
-ceedings referred to in your several Dis-
-patches relative to the employment of the
Bengal Marine Battalion for the relief
of the Native Troops serving at Malacca
and the Moluccas. - Motives of Policy,
and humanity might have dictated this
measure at an earlier period, if circum-
-stances would have admitted of it. The
indulgence extended to the Families of
these Native Corps, as mentioned in the

48th Paragraph

48th Paragraph was highly proper

the Company or of the
Rajah of Mysore pro-
hibited

19.

We very much approve

of the Orders which were issued to the
late Major General Hartley on the sub-
ject alluded to in this Paragraph. -

52 and 53. Detention
of two of the Compa-
ny's Officers by the
refractory Troops of the
Mysore, with whom
they were permitted
to enter and re-
-sented taken to
-were their release

20.

We trust, that in conse-

quence of the Orders of the Mysore Mu-
nister, Azim ul Amrah, to Rajah Roshun
nari, that the officers alluded to in these

Paragraphs, were shortly after released

without

without any further insult or injury to
their Persons. As this order was issued
on the 16th October 1799 we are surprised
that your orders, so long subsequent to
that date, should not have mentioned
their release. -

34. Tent allowances
to the subsidiary
Force serving with
the Nizam.

21. As the subsidiary Force
serving with the Nizam has been recently
augmented to eight thousand Infantry and
one thousand Cavalry, besides Artillery,
we direct that your late determination,
relative to Tent allowances to this Force,
be referred to the present Commander
in Chief, for reconsideration, with re-
ference to our opinion and directions
on this Subject, contained in the 15th
Paragraph of our Military Despatch
of the 22nd May 1800. -

35. Swiss Regiment

Will be replied to in a
subsequent

subsequent Paragraph

56 & 60. Relative to
the further enquiry
into the conduct of Cap-
tain Bong of the En-
gineers

23

We approve of your proce-
-ings relative to the further enquiry into
the conduct of Captain Bong of the Engine-
-ers in consequence of our orders of the 5th De-
-cember 1798. And having had reference
your former advice and proceedings upon
this subject and to our reply thereto of
20th June 1797, and being advised in your
subsequent Dispatch of the 14th April
that having gone into a full considera-
-tion of the subject you saw no reason
to alter the decision which had been
passed upon that Officer's conduct, and
had therefore confirmed the suspension
of Captain Bong from our service,
and as we had previously resolved as
mentioned in our before-mentioned Dispatch
of the 5th December 1798, that the decision
of

of your Government upon these subsequent proceedings should be considered as final, it only remains for us, in consequence of your earnest recommendation, and with a view to example, that Captain Bong be dismissed from the Company's service and he is hereby dismissed accordingly. -

24. But as the Committee of Officers appointed for a further investigation into the Conduct of Captain Bong, have subjoined to their Report a representation in favor of humanity, that some pecuniary indulgence might be shown him, in order to screen him and his Wife, from actual want, and as it appears from the Minute of the late Commander in Chief, which followed that representation, that Captain Bong was admitted into the Corps of Engineers without possessing that general ground-work of science

so essential to the duties of that Branch of Military service, a defect in the system which, by a late regulation respecting the education of Gentlemen nominated to that Corps, will in future be remedied; we have resolved to allow him the half pay of his Rank for life, payable either in England or in India should he prefer remaining there, which he has our permission to do. In consequence however of this determination, the allowance of the subsistence of his Rank which you have granted to him, as advised in the 60th Paragraph, is to cease. -

6/12/66. Meritorious
conduct of Major Bannerman in subduing
the rebellious Poligars
of Tinnevely. Refragment
of the Major's Passage.
Money which he has
performed by capturing the
command of the expedition
towards punishment
of the rebel officers for
their misconduct during
the Service. -

25.

The highly meritorious

conduct of Major Bannerman in subduing the rebellious Poligars of Tinnevely, will

will be noticed from the Revenue De-
-partment - We must here however, sig-
-nify our entire approbation of your
having repaid to Major Bannerman
the amount of the Passage Money
which he had forfeited by accepting the
Command of that Expedition - We have
further to express our approbation of
the manner in which it was agreed
to testify your displeasure at the beha-
-viour of the Native Officers at the
attack of the Fort of Pandalamcouchy,
as mentioned in the 66th Paragraph.

16 Jan 68. Removal of
Captain Norris from
his station of senior
Engineer at Seringa-
patam -

26- Although in conse-
-quence of the representations of the
Commanding Officer in Mysore, you
deemed it proper to remove Captain
Norris from his station of senior En-
gineer at Seringapatam, yet the result
of

of the survey (referred to in your subsequent Dispatch of the 14th April) of the Works executed by him, and which took place subsequent to his removal was certainly highly favorable to the general Conduct of that officer. If the survey had been made previous to Captain Norris's removal, as in strict justice it ought, we conceive the necessity of such removal would have been effectually obviated. And when we consider how frequently we have occasion to remark on the defective execution and unreasonable expence of Public Works, the Report before us of those executed on by Captain Norris, both as to their being in general well executed, and at less than their estimate, forms a contrast very pleasing to contemplate.

We approve of your de-
 termination upon the points mentioned
 in these Paragraphs. With respect to
 the general Subject of Mr. Bowie's Tent
 Contract, we refer you to the sentiments
 expressed in the 14.th Paragraph of our Mi-
 litary Despatch of the 22.nd May 1800. -

We approve of the appoint-
-ments advised in these Paragraphs;
and for the reasons assigned in the Mi-
-litary Auditor General's Letter of the 14th
October 1799 we likewise approve of the
allowance that has been made to Pay-

Col. Read's Bullock
Accounts. -

36.

As the proceedings re-
ferred to in the 30th Paragraph of your
subsequent Dispatch of the 9th October
last, relative to the adjustment of the
Accounts of Lieutenant Colonel Read,
have not yet been transmitted to us,
we are unable to form an opinion
upon the subject. -

35. Table allowance
to Colonel Read while
in command of a separate
Detachment. -

37.

Nothing but the strong-
est sense of the highly meritorious ser-
vices of Lieutenant Colonel Read, for
several years past, added to a consider-
ation of the circumstances stated in
his Letter of the 7th July 1799, of his mak-
ing an allowance of two hundred
Pagodas a Month out of his own pocket
to his assistants, whom he left
in the Barammahal on his being
appointed

appointed to the command of a separate Detachment, could have induced our acquiescence in the Table Allowance of (300) three hundred Pagodas a Month during such Command - At the same time, we must remark on the impolicy of leaving it to any officer, how great soever his merits may be, to appreciate the value of his own services, as appears to have been done in the instance before us.

26 & 27 Adjustments
of the accounts of the
owners of Bullocks
provided for the Bom-
-bay Army under
the orders of Major
Parnemann.

38.

Having perused the proceedings referred to in these Paragraphs, we approve of the mode which was adopted for adjusting the claims of owners of Bullocks provided for the Bombay Army under the orders of Major Parnemann. - We are pleased to observe, that the zeal manifested by

by this Officer for the public Service upon that occasion has been marked with your approbation.

39 & 90- Case of Ma-
jor Patterson of the
King's Dragoons with
respect to advanced
pay and allowances
drawn by him.

39.

Under the peculiar circumstances of the case, we have agreed that Major Patterson be not called upon to refund the advanced Pay and Allowances drawn by him, in consequence of his promotion in His Majesty's 25.th Regiment Dragoons, but which promotion was afterwards superseded by His Majesty. - We however think proper to direct that the advanced pay and allowances to King's Officers similarly situated be not issued until His Majesty's approbation of such promotion shall have been communicated to you. -

64.

We are pleased to observe
the favourable mention here made of the
conduct

Conduct of Colonel Rogers commanding the Northern Division of the Army, and approve of your having conferred him in that Command, as well as of your appointment of General Bridges to the Command of the Southern Division.

65. We also approve of your having postponed supplying the vacancies occasioned in the General Staff of the Army by the departure of Generals Hanes and Floyd to Europe.

132 & 134. - Approving the names of officers proceeding home on furlough.

135. - Appointment of Captain Pomeroy to be Deputy Assistant Quartermaster and of Major Fanning to be Deputy Quartermaster General.

137. - Appointment of an Assistant in the office of the Adjutant General.

67.

As this additional establishment

establishment leads to a permanent increase
Expense of (600) Six hundred Pagodas p^{er} An-
num, besides taking an Officer from the
duties of his Regiment, which from the
want of Officers when the measure was
adopted must have contributed to the in-
convenience of which you complained on this
account, we direct that the appointment
of an Assistant in the Office of the Aspi-
rant General be reconsidered. -

140. Mr. Fitzgerald
appointed to succeed Mr.
Conolly in charge of the
Lunatick Hospital - } 69.

As a very considerable ex-
pence is sustained by the Company on account
of the Lunatick Hospital at your Presidency
(the lease of which we observe by your
Proceedings

Proceedings has been extended from ten to twenty one years, though no mention is made of the Circumstances in your Dispatches, we wish to be acquainted with the state of that Institution, the number of Patients of which it consists, the care with which it has been conducted, and the individual benefit that has been derived from it.

70. As the Allowance of Pagodas (250) two hundred and fifty per Month to Mr. Correlly, originally in charge of the Lunatic Hospital, was inclusive of his personal duty as Surgeon to the Hospital, we direct that if any separate allowance has been made on that account to his successor, Mr. Fitzgerald, the Amount thereof be deducted from the growing rent of the Building, as it was certainly incumbent upon Mr. Correlly, agreeably to the spirit of his first agreement, to have procured, at his own Expense, a professional Man

Man for the charge of the Hospital on his leaving India. -

141. Surgeon Pollard

Judges of the fittest Officers to be selected for
particular Commands. -

23 & 24. Rejection of
Captain Scott's claim
to resume the situa-
tion of Company's

26.

We approve of your de-
termination upon the subject mentioned in
these Paragraphs and confirm your resolu-
tion therein referred to, that the embark-
tion of an officer with an intent to pro-
ceed to Europe is and will be considered
to be a vacation of all Staff Appointments
in the Company's Service. -

25 & 26. Reprehension
of the Medical Board
for having submitted a
proposition of Dr. Fa-
lagon to take upon
himself the entire
management of the
Madras Hospital. -

27.

For the better understand-
ing the subject alluded to in these Para-
graphs, we had recourse to the existing
Medical Regulations of December 1793, by
which we observe that a Surgeon was
to be stationed at the Presidency Hospital,
to

to have the charge of all Patients of a particular description, and to be allowed a certain rate for each Man in Hospital in full for victualling, cloathing, Bazar Medicines, and every other article necessary for the sick, European Medicines excepted. As a check upon the Surgeon, no Man was to be admitted into the Hospital without a previous examination by the Head surgeon, who was likewise required to visit the Hospital daily. -

88. Although those regulations did not take effect 'till the 1st January 1794, yet we find, before the expiration of that Month a representation was made to you by the Medical Board relative to the deranged state of the Presidency Hospital, and recommending that the Surgeon of the Hospital should be entrusted with the
general

general control of the interior management with an additional allowance for his trouble. you very properly declined giving any additional pay to the Surgeon for the performance of a duty which you conceived to belong to the Head Surgeon and for which he was already rewarded by a liberal salary. - Or in other words, to the Head Surgeon was left the general control of the interior management of the Presidency Hospital. -

29. Although the general control of the interior management of the Hospital was thus left to the Head Surgeon, we do not find that the office of Surgeon to the Hospital, for the purposes before mentioned, was either abolished or intended to be so. - On the contrary, by a subsequent General Order of the 19th March 1794, he was permitted to draw

an allowance, in addition to what he was previously in the receipt of, for such Europeans and natives, not in the Company's Service, as might be admitted into the Hospital.

90. If the recommendation from the Medical Board, referred to in the Paragraphs before us, had been confined to the Head Surgeon being charged with the general control of the interior Management of the Hospital, as in 1794, there could have been no possible objection to it as forming a most essential part of his Duty. - But the proposal to charge him, at the same time, with the sole management of the Sick, connected as it is, by the removal of the surgeon appointed for the special purposes before-mentioned, and over whom the Head Surgeon is supposed to be the constitutional chief

check, was certainly highly objectionable, unless it had been also proposed to vest the Chief Surgeon with the same control over the Head Surgeon, as the latter possessed by the Regulations of 1793 over the Surgeon which would in consequence require the daily attendance of the Chief Surgeon, and might therefore be incompatible with the Duties assigned him by the General Order of the 19th March 1794 of visiting the General Hospitals all over the Coast. - Orders of the Head Surgeon were vested with the sole Management of the sick in the Presidency Hospital, which would require his constant and unremitting attention, it might probably interfere with the Duty prescribed for him by the 15th Article of the Regulations of 1793, that of superintending the conduct of the Regimental Surgeons at their respective Hospitals. -

Under

91

Under the regulation of 1793 which establish the Head Surgeon as a check upon the surgeon at the Presidency Hospital, it was unnecessary to give the former any more immediate interference in the Duties of that Hospital.

92

We refer you to a subsequent part of this letter for our further sentiments on the subject of General Hospitals. -

In the 101st Paragraph
of your preceding Despatch we were in-
formed of your having appointed Mr.
Horsmann to be surgeon to the Commis-
sioner in Chief, and to the staff at Head-
quarters. The Paragraph to which
we are now replying, acquaints us
of the same Gentleman being appointed,
with an allowance of Captain's Pay
and Batta, to attend the Corps of
officers residing at the Presidency for
their Health. - We do not perceive any
satisfactory reasons for erecting these
offices and we direct that they be im-
mediately revoked. At the same time
as a mark of our personal respect for
Lord Clive, we acquiesce in Mr. Asst.
Surgeon Thomas being permitted to

attend his Lordship with the allowances
you have assigned him. -

71 & 72 Salary to the
Secretary to the Medical
Board increased from
fifty Pagodas to Pagodas
one hundred and fifty
Rs. Month -

115 Upon a full considera-
tion of the duties to be performed by
the Secretary to the Medical Board, we
can by no means admit of the necessity
for so considerable addition to his salary,
which must therefore be reduced from
receipt of this Letter to one hundred Pa-
godas per Month. -

116 The application from
the Secretary to the Medical Board for
an augmentation to his salary is in great
measure founded on a comparison with the
Salary annexed to the same office at Ben-
gal, and the Medical Board's recommenda-
tion is made on the same principle.
In this we refer you to what is stated in
our Military Letter of the 7th May 1800, and
we

we repeat our determination on no account to listen to applications made on such comparisons. -

117 We must here observe that since the period of the Governor General's recommendation for a revision of Establishments for the purpose of effecting every practicable reduction therein, we have been more frequently called upon to sanction additional expenses than at any former period, except by the Government of Bombay, who greatly to its honor, have made considerable reductions in the charges of that Presidency

118 As connected with this Subject we have to inform you, that we have attentively considered your earnest recommendation in the 1st Paragraph of your subsequent Letter of the 9th October 1800 in favor of the Medical Board,

and

and altho' we disapprove of some of the arguments on which that recommendation is founded, for reasons already before you, yet from a conviction of the inadequate amount of their present Incomes, we have agreed to allow them an increase thereto. -

119 We have lately had under consideration the plan that has been adopted for the Medical Establishment at Bombay which has appeared to us so much superior to the former system, that we have not only given it our approbation, but have directed the supreme Government to establish a similar Plan at Bengal. -

120 The new system at Bombay appears to have been modelled principally from the Regulations established at your Presidency in 1793 and 1794, and a
General

General Hospitals have been discontinued, except in regard to one at the Presidency, for the reception of Recruits, Invalids, Paupers and others, not coming under the description of Military. - the Head Surgeons act as superintendants of the Regimental and other Hospitals. -

121

Although this seems to be virtually the same system with that adopted at your Presidency by the Regulations of 1793/4, we observe you still continue the Hospitals at Masulipatam, Fitcheropoly, and Vellore, under the denomination of General Hospitals with Head Surgeons at each. - This appears to us unnecessary as we take it for granted few if any Patients can be sent to these Hospitals and the preferable designation therefore would be superintending Surgeons as at Bombay. -

We

We enclose you a copy of the Regulations established at the latter Presidency, and direct you to explain to us whether the continuations of General Hospitals above noticed are any longer necessary. -

By our separate letter of the 8th January 1796, the Members of the Medical Board were reduced to two, as it appeared to us to be more systematic that the Head surgeon at the Presidency should not have a seat at that Board where his own Accounts or Conduct came under examination, but under the existing regulations this objection seems entirely gone away, and it is no longer necessary that the surgeon of the General Hospital at the Presidency whose Duties are defined by the 15th Article of the Regulations published the 4th

December

December 1793 should be called Head Surgeon. -

124

In consideration of this circumstance and with a view to encourage the exertions of gentlemen of the Medical Profession, we have agreed that the Medical Board shall in future consist of three Members, who in addition to the general superintendence entrusted to them, shall in rotation visit the Hospitals at the Presidency. -

125

The Salaries to the Medical Board and superintending Surgeons are to be as follow. -

1 st Member of the Medical Board	Rs. 2750 or £ 3500 p ^a Ann ^o
2 nd Member	7000 or 2200
3 rd Member	6000 or 2400
Superintending or Head Surgeons	4000 or 1600

126

The above to be in full of all Emoluments from the Company and

to take place from the receipt of this Letter -

127. We think it necessary to call your attention to the enormous expenditure of Europe Medicines and Medical Stores as stated on the Proceedings of the Medical Board. by which it appears that the amount of such expenditure at the Presidency has been as follows. -

From November 1797 to January 1798. £ 1021.

February to April 1798 . 1306

May to July . 1798. . 1584

August to October . . . 1798 . 3536

includes Masulipatam & Bellon

April to July. . Presidency . . 1902

August to October . . . " . . . 5499
£ 12994

Altho

Altho' some part of the increasing expence above stated may be attributed to the augmentation of your Army and to the Medicines furnished to the Settlements of Ceylon &c. yet it appears to us that a sufficient check has been wanting on this Point, and we apprehend that the Medical stores have been issued to Persons not entitled to benefit thereby at the Company's Expence

We observe also by the Proceedings of the Medical Board under date of the 29th October 1799, that some of the servants to the Medical Storekeeper had been guilty of embezzling the Stores, and that from the insecurity of the Godowns the Medical Board were prevented holding the Storekeeper responsible for these embezzlements the Storekeeper on this occasion has laid a considerable

considerable share of the blame on his late Deputy who he states "should have known" and could have prevented them" and that this is not the first instance among many that he has had to find fault with him.

130 All these circumstances show that due attention has not been given to the care and disbursements of the Medical stores, and you will therefore indicate on the Medical Board the absolute necessity of a regular and constant control over this Department submitted to their superintendence, you will also adopt such Regulations for the issue of our Medical Stores, as may prevent any Person from drawing Medicines &c. from the Company's Stock for private Practice or Benefit if such as we have reason to suspect has been hitherto the case.

2. Very great Inconvenience and Anxiety having been experienced by the Relations of many Persons in the Company's Army in India in consequence of the Muster Rolls not having been

been received annually in England, We direct that regular Muster Rolls be transmitted to us by the first opportunity after the Receipt of this Letter together with List of Casualties made up carefully from the Date of the last List forwarded from Madras, and that the Muster Rolls and also the List of Casualties describe the year of arrival of each Person in India, the Ship on which he left England, the Place of his Nativity, the Corps and Station in which he is now serving or last served, and his Age. We further direct that Muster Rolls and Lists of Casualties be prepared agreeably to the above Orders, and forwarded regularly every Year, and that in case of your receiving any Men from St. Helena or the Establishments of either of our Presidencies in India, that you will continue to include the Names of such Men in your Muster Rolls, and that if other Men should be removed from your Establishment you so describe them in your Returns that we may be completely enabled to

to give satisfactory information to such Relatives of
those Persons as may make enquiry respecting them.
Upon any Men being discharged, you will take care

Para 1 Our last Letter to you in
this Department was dated the 9th September 1801. -

2 We have great satisfaction
in acquainting you, that the General Court of the
proprietors on the 16th December last came to the fol-
lowing Resolutions which you will publish in
General Orders. -

Resolved Unanimously That the Thanks
of the East India Company in General Court now
assembled, be given to Admiral the Right Honora-
ble Lord Keith K B Commanding the British
Navy stationed on the Coast of Egypt for his effecti-
val Co-operation with the Army employed there,
which so essentially contributed to the final success
of

of a glorious Campaign that has added Signal Luster to the Reputation of the British Arms, and rendered the most important Service to the East India Company.

Resolved Unanimously That the Thanks of this Court be given to the Admirals, Captains and Officers of His Majesty's Fleet co-operating with the Army employed in Egypt; for the Zeal, Activity and perseverance manifested by them in that important Service, and to the Seamen and Marines of the Ships and Vessels under their Command for their very meritorious Conduct, which so essentially contributed to the final Success of that glorious Campaign.

Resolved Unanimously That the Thanks of the East India Company in General Court now assembled be given to Lieutenant General the Right Honorable Lord Hutchinson K. B. Commander in Chief of the British Forces serving in Egypt, for the very eminent Services which he has rendered to the East India Company by his able and splendid display of Military Talent in the glorious Achievement of the entire conquest.

conquest of Egypt, by which the brave Army under his direction have gratified the warmest wishes of their Country. -

Resolved Unanimously That the Thanks of this Court be given to the Officers of the King's and Company's Forces employed in the conquest of Egypt, for the Military Entertains, Spirit and Intrepidity which they manifested in the execution of this most important Service, and to the non Commissioned Officers and Privates for their Bravery, Perseverance and Military Discipline, no less conspicuous in the Camp, than their Courage in the Field, under the most arduous and disheartening difficulties peculiar to the local situation of Egypt. -

3 We have agreed that the promotions in our Military Service, in consequence of Resignations in Europe, shall take place from the periods at which we permit Officers to retire, of which you will be regularly advised. -

4. We have appointed Mr. Robert Smith

Smith (now abroad) a cadet for the Cavalry in your Establishment provided you shall be satisfied that he has held a Commission in His Majesty's Service for the space of one year at least, and that he is unexceptionable in every respect. The Friends of Mr. Smith, have produced to us the necessary certificate of his Age. --

5

Enclosed you will receive
Copy of an Order of His Majesty's Most Honorable Privy
Council, licensing the Company to Export sundry Bani-
-son, Ordnance, and Naval Stores, and also provisions,
and directing the return of Certificates for those land-
-ed; you will therefore be careful to furnish us
with the Certificates which are required of such
stores as shall be landed at your Presidency, that
we may avoid the heavy penalties, to which we
are liable, if the Bonds given to the Crown on this
occasion, should be put in suit, taking care that
the Certificates contain an exact Copy of the Indorse-
ment of the Warrants sent by the Ships whereon such
Stores

Stores are laden, and not the particular Contents of each package. -

Upon considering the whole
of your proceedings respecting these Gentle-
men we have to acquaint you that we
do not feel perfectly satisfied with the man-
ner in which you have investigated their
pretensions to those appointments on your
Military Establishment to which we had
conditionally affixed them, but as the
Commander in Chief has signified from
his own knowledge that their Mother
was the Daughter of Mr. Brook who
was a Member of the Madras Council
we have come to the Resolution of con-
firming their appointments accordingly.

We ^{much} very approve of the
Minute of your Right Honorable President
of

of the 8th April 1800, on the general subject of Tent allowance and House Rent to all the Officers serving under your Presidency, having been submitted to the deliberate consideration and discussion of the Military Board. - With respect to the observation contained in the 191st Paragraph of your Letter in this Department of the 18th March 1801, in answer to a previous remark of our own on the considerable additional expense of granting Tent allowance to the King's and Company's Officers, unquestionably if, after full discussion, the principles stated Lord Clive's estimate shall be accurate and the proposed plan, instead of augmenting, shall really be found to diminish, this branch of our Military Expenditure, our former objection would

would be completely obviated. At the same time we think it proper to direct, that, if upon the receipt hereof, you shall not have come to a final determination upon this important subject, you postpone a decision thereon until we shall have an opportunity of considering the report of the Military Board, and of examining, with accuracy and precision, the several statements that have been, or may be, produced in its elucidation.

7. Concurring in the propriety of the suggestion of the Military Board, respecting the necessity of a very accurate inspection of the public Buildings and Fortifications — above the Ghauts, we approve of your determination for the appointment of a Committee of Inspection for the purposes

purposes mentioned in the 5.th and 6.th
 Paragraphs of your Letter to the Mi-
 litary Board of the 5.th April 1800, and
 in the instructions proposed for its ge-
 neral use —

28 & 29 Repair and
 Reform of the Fort of
 Seringapatam. - -

11 Previous to your
 coming to a decision upon the plan
 which

which had been laid before you by the Military Board for the repairs and reform of the Fortifications of Serunga-
patam, we approve of your having deputed the Chief Engineer to the spot, for the purpose of receiving his opinion as to the repairs and reform necessary to be introduced in the Works of that Fortresp. In a letter from the Military Board of the 9th December 1809 which was near eight months subsequent to the date of your instructions to the Chief Engineer upon this occasion, reference is made to their report of the 19th November preceding, submitting a general plan for the improvement of those Works, to your consideration; but we are surprised that the report is not entered upon your Consultations, neither has the plan,

plan, therein referred to, been transmitted to us. Annexed to the before mentioned Letter from the Military Board of the 9th of December is an estimate of the expence of building a stone bridge, over the North branch of the Cauvery at Seungapatam, amounting to Pagodas (50,370) fifty thousand three hundred and seventy, the determination upon which was reserved for a future opportunity - But a copy of the Plan, Elevation and Sections of the proposed Bridge, has not been transmitted to us, an inattention on your parts for which it is difficult to account.

12

From the original report of the Chief Engineer of the 7th February 1800, on the plan
and

and papers relative to the defence of
Serungapatam received from the Honble
Colonel Wellesley and Captain Norris,
and from the 3rd Paragraph of your
consequent instructions to Major Gene-
ral Ross of the 23rd April following
it appears, that the necessary reform
of that Fortress might be effected with-
out any material addition of expense.
We therefore think it proper to direct
that before any material alteration or
new Works in the Serungapatam For-
tifications shall be commenced, that
are likely to be productive of any con-
siderable expence, that the plans and
estimates be transmitted to us for our
previous approbation and sanction. The
erection of the proposed Bridge must
likewise be postponed till our further
Orders.

30 Adjustment of the
Accounts of the Ben- 13

Owners under Lieut-
enant Colonel Read

We have perused the
proceedings to which you referred us,
and approve of the manner in which
the accounts of the Benjamins and
Bullock Owners under Lieutenant-
Colonel Read have been adjusted. We
likewise approve for the reasons ex-
pressed in the 127.th Paragraph of the
Letter to which we are now replying
of the appointment of Captain Symon
to superintend the adjustment of the
Bullock accounts of the Grand Army
of the manner in which the com-
-pensation to the Bullock Owners
to be settled, we have already, in the
5.th Paragraph of our Military Dispa-
of 26.th August last, signified our ap-
-probation.

14.

Upon this occasion we
think it necessary to refer you to
the

the 12th Paragraph of our Letter in
 this Department of the 22nd May 1800,
 to which Paragraph you have not
 given an Answer) recommending to
 your consideration a suggestion of
 General Harris, founded on a plan
 proposed by Lord Cornwallis, for af-
 fording encouragement to that useful
 class of Men, the Benjamins, to
 form a Settlement within the Com-
 pany's Territories. We direct that
 the subject be taken into your Con-
 sideration. -

36 Military Store
to be furnished by
Contract instead of
Agency and pro-
posals from Mr
Maitland for that
purpose accepted

In the 44th Paragraph
of our Letter in the Public Department
of

of the 9th September last, we signified our approbation of your resolution for abolishing the Office of Agent for the supply of Military Stores, and for the future provision of those Articles by Contract. We have now to express our approbation of the Contract having been concluded with M^r. Maithland for that purpose, who proposals, in comparison with those of six other persons, appeared to the Military Board to be the most eligible -- you will report to us, whether the regulations proposed by that Board for the supply of Stores for the use of the Arsenal by Indent, and the regulations for the conduct of the Contractor, have been effectual to
the

the attainment of the objects proposed.

of the Native

21 In the 17th Paragraph
of our Military Dispatch of the 26
August last, we signified our appro-
bation of your proceedings for relie-
ving the Native Troops serving at
Malacca and the Moluccas. The
arrangements for that purpose,
referred to in the 116th Paragraph
of the Letter to which we are now
replying, have likewise received our
approbation.

40 Major Hart 22.

Will be replied to
in a separate Paragraph. -

41 and 42 Requisitions
for the supply and
maintenance of the
Establishment of Ele-
phants and Bullocks
in Mysore -

23. The Military Board
in their Letter of the 18th April 1861
having given it as their opinion,
that

that the establishment of Mysore & Bullocks should be kept up, as possessing the most decided advantages over the plan adopted with respect to the cattle occasionally hired for the public service, and that nothing can more essentially contribute to early and successful operations than a complete establishment of well trained Bullocks, of a superior quality for transporting the field train and provisions of the Army, we do not feel inclined to express any disapprobation of your consequent resolution authorizing the establishment proposed. But as this establishment will be productive of an Expense of about Pagodas (46,920) forty five thousand three hundred and twenty *Rs.* Annam, exclusive

exclusive of the proposed establish-
-ment for Elephants, calculated at
about Rupees (30130) thirty thousand
one hundred and thirty Rs . Annam,
we direct that all the proceedings
relating to the Subject be submit-
-ted to the revision of your Com-
-mander in Chief, Lieutenant Gen-
-eral Stuart, of whose judgement
we entertain the highest opinion,
and from whose experience acquir-
-ed in the late Mysore Campaign
the public service is likely to derive
considerable benefit. - We further
direct that you acquaint us whe-
-ther the expence of the proposed
establishment of Bullocks and Ele-
-phants has been exceeded, and to
what amount.

24. It having been suggested
to

to us that Horses might be substituted instead of Bullocks for the purposes mentioned in the preceding Paragraph, we recommend the suggestion to your consideration, and that you report to us your opinion thereon and the Expense attending the same. -

25 The 263^d and following Paragraphs of our Letter in this Department of the 7th May 1800, contained some observations on the representation which had been made to us respecting certain radical defects in the establishment of the Army under your Presidency. Considering the subject merely in a Military point of view, we do not feel quite satisfied with the general answer to those Paragraphs contained

contained in your subsequent Despatch of the 18th March 1801, we wish, therefore, to receive the opinion of Lieutenant General Stuart upon this subject likewise -

26

In the 153^d Paragraph of your last mentioned Letter, we are acquainted that Lord Clive had in separate Despatches submitted to the Governor General the extent and description of the force requisite, in His Lordship's judgement, for the protection of the Territories now subject to your Presidency, as well as the best and speediest means of rendering that force efficient in any direction to which the course of events may lead. Upon which we have to observe, that his Lordship's opinion
upon

upon points of such high importance to the Company, and having so close a connexion with the subject of our before-mentioned observations, ought, as an indispensable act of duty, to have been communicated to us, or to our Secret Committee, by the earliest opportunity. Upon these points also we are extremely anxious to be advised, as soon as possible, of the determinations of your Commander in Chief, whose opinion must at the same time be communicated to the Government General.

caution you against the institu-

most evident necessity. - The charge
of the Company's respective estab-

Having perused the representation upon the subject from Captain Leith, the Officer who now occupies that post, and implicitly replying on his declaration thereon contained, respecting his emoluments, we have agreed to fix the salary of the Judge Advocate General at 150 Pagodas Rs . For

95299 The Cadets
formed into a Com-
pany for the pur-
pose of being in-
structed in their duty
previous to their
appointment to the
different Corps -

57.

For the reasons af-
signed in General Brathwaite's let-
ter of the 15th July 1800, we affirm
of the Cadets having been formed in
a Company under the command of
Captain Armstrong for the purpose
of their being instructed in their du-
ty previous to their appointment
to the different Regiments as Lieu-
tenants and to be stationed at Chri-
stchurch. As Captain Armstrong
was permitted to draw the Pay and
Allowances of Major, instead of those
of his own rank, during the period
he might be continued in that se-
-tuation, making a difference in his
favor of Pagodas (50) fifty a Month, we
must object in the most pointed ma-
-ner, to the subsequent appointment
of that officer to the nominal command
of

of the dismantled Fort of Chingleput, during the time he might remain in charge of the Company of Cadets, for the purpose of permitting him draw the same Allowances (Pagoda 66 a Month) as were formerly enjoyed by Officers commanding at the station, We must remark that you have advised us of the former allowance of (50) fifty Pagodas to Captain Armstrong, but no mention is made in your Despatches of this subsequent allowance, of which we positively direct the immediate discontinuance.

100 Regulations placing responsibility on the Paymasters of His Majesty's Regiments for the amount of such allowances to be made from their disbursements of the Government allowances -

58.

We approve of the regulations contained in the General Order issued on the 12th July 1800, for fixing responsibility on the Paymasters of Regiments in His Majesty's Service

Service for the amount of such re-
-treachments as might be made from
their abstracts on account of the Com-
-pany's allowances,- We likewise ap-
-prove of your subsequent resolution
referred to in the 222.nd Paragraph of
your Letter of the 12.th March 1801,
adopted in consequence of the refusal
of certain of those Paymasters to
conform to the regulations establish-
-ed.

59. We have not yet
been acquainted with the measure
which, in consequence of your re-
-ference for that purpose, the Com-
-mander in Chief of His Majesty's
Forces in India has deemed it ne-
-cessary to take in order to provide
for the regular and efficient discharge
of the duties of Paymasters of His
Majesty's

Majesty's Regiments; but we trust that the mode suggested by the late Military Auditor General, respecting the accounts of His Majesty's Corps in which the functions of the Regimental Paymasters have been or may be suspended, will prevent any difficulty or embarrassment from accruing to the King's Pay Office.

you have assigned, we approve of the deviation from the ordinary mode of sending Invalids to Europe on the direct Ships.

103 Regulation
of the exchange of the
different Coins in
which the Pay to the

61

We have great satis-

that the measures you have adopted for preventing the loss arising to the Company on the exchange of money for

for the payment of the Troops in the Southern Provinces and for securing the Troops themselves against the injuries they sustained previous to the late regulations, have been attended by the desired success. We trust that similar arrangements experienced by the Troops the Provinces lately subjected to the authority of the Company have been also removed in consequence of your subsequent regulations for that purpose, referred to your last mentioned Dispatch. But it is impossible to peruse the various reports of the several Collectors upon the general subject of the Coinage, without concurring in your opinion, that the removal of the complicated evils arising from the fluctuation in the exchange, the debasement of the different Coins, and the fraudulent practice of the Shroffs,

can

can only be effected by a thorough-
reform in the Coinage and the esta-
-blishing of one Coin throughout the
Company's possessions. - To which may

187 Stables at Bangalore - 365.

Although you have given an Answer to our Military & Despatch of the 7th May 1860, we have not yet received the report therein directed to be made to us of the state of the Bangalore Stables with the Expenses attending it. When we first signed our approbation of the plan proposed by Captain Evans, the Superintendent of the Stables, we understood that the number of brood Mares was not to be more than 150, one hundred and fifty, with their complement of Stallions, and that this establishment was to be formed for ten thousand Pagodas. - We are, however, ignorant of the Expense which has attended its formation and can form no estimate of the charges thereof in its present increased state. - Instead of 150 one hundred

hundred and fifty brood Mares, as originally proposed, we find by the Superintendent's Letter of the March 1800, that he is anxious to provide with certainty for the great annual produce of five hundred Mares, and to procure the requisite number of Grass cutters and Horse-keepers, concluding with a proposition that certain Districts to a considerable extent might be placed under his control. - We are accordingly advised in your Letter in the Revenue Department of the 9th October following, of your resolution for assigning these Districts to his exclusive management. -

66. After expressing yourselves aware of the various objections that existed against placing this

this Territory, which is said to embrace a Circuit of $16\frac{1}{2}$ Cops, under the exclusive charge of the Superintendent, we were much surprised to find by your proceedings, that you had granted him a ten years Cowl for the same, at a fixed rent. As the Superintendent, however, is to be accountable to the Company for the annual Rent at which those Districts have usually been let, we shall not issue our fiscal Decisions hereon until we shall be able to ascertain whether the measure has contributed to the success of the Stud or otherwise. -

67 The original purpose of the institution was to introduce a breed of Horses into the Company's Territories proper for the Cavalry without having recourse to foreign

foreign Countries for the supply.-
We were willing to sustain the
expense of forming a stud upon
a limited scale, hoping that it
might be the means of leading the
Natives to enter upon the breeding
system on their own account, and
thus at no distant period render
a public Institution of this na-
-ture unnecessary.- This object you
must have constantly in view;
and we rely upon the business
being conducted with all due re-
-gard to that system of Economy
which it is indispensibly necessary
should be introduced into every De-
-partment of the Company's expendi-
-ture. - To enable us to form an
accurate opinion herein, you will
furnish us from time to time
with

with a full report on the state of
the Steer, and an Account of the Cha-
-ges attending it.

for the time he acted as Commissary

the insufficiency of one Man holding

of which it was impossible for him

to 31st July 1797 Mr Shardon held
the Office, and drew the allowances
of Paymaster at Pondicherry and Che-

therefore, to depart from our former opi-

The 13th Paragraph

tained our opinion relative to the
appointment of Mr. Goldingham to
be Superintendent of the Buildings
and Repairs, Civil as well as Mil-
itary, at your Presidency, under the
denomination of Civil Engineer; and
we regretted that those of a Military
description should be left under the
superintendence of an Engineer Offi-
cer as formerly - A perusal of the
Letter from the Chief Engineer, Major
General Ross, of the 18th February
1801, has not only confirmed us
in the propriety of that decision,
but

but we think it proper further to direct, that all public Works & Buildings at the Presidency, particularly those of a Military nature, as every description of Persons employed therein, be again placed under the direction and instructions of the Chief Engineer, subject, however to the efficient check and control of the Military Board as former,

113

We also direct that the erection and repair of all public Buildings whatever, excepting so as may be deemed indispensably necessary, be suspended until the Navy's finances shall be better able to sustain the charges thereof. You will report to us, distinctly, the nature and condition of such Works as may be postponed in consequence of these directions, the ~~of~~ ^{respecting}

Lydenham, of the Corps of Engineers
upon your Establishment, stating
the services of the late Major Gen-
eral Lydenham, and the embroiled
situation of his Widow
and two Daughters, and having
at

at the same time attended to the several documents from India in support of General Lydenham's merits and Services, we have in consequence of the distressed state in which his Widow and Daughters are left, presented M^{rs} Lydenham with the Sum of £2000, and each of her two Daughters, with the Sum of £500.

Gun Carriages - } 154

We very much ap-
-prove of the application which was
made to the Government of Bom-
-bay for information regarding the
rates at which Gun Carriages can
be provided at that Presidency, with
a view of diminishing the expense of
that Article at your Presidency. A
perusal of the correspondence between
the Military Board and the Contrac-
-tor for Gun Carriages, (to which, how-
-ever, no reference is made in your
Dispatches) has not convinced us of

the propriety of your decision for
allowing them (25) twenty five
pc. Cent on the price of the new
galloper horse carriages, or of the
equity of the principle upon
which that decision was formed.

The Contract provides only for a
reasonable compensation being
allowed when any additional ex-
-pense may be incurred beyond
the rate affixed by the Contract,
which was evidently not the case
in the instance before us. In
our opinion the actual cost of
the new work should not be com-
-pared with the actual cost, but
with the contract price of the old,
which if it does not exceed, the con-
-tractors can have no reasonable
plea for compensation, unless they
can be able to show that they have

sustained a loss upon the whole
of the Contract through unavoid-
able occurrences. In which case
a reasonable allowance must be
made according to the actual price
of the Articles supplied -

As connected with
the first branch of this subject,
we have referred to the General
Orders of 5th November 1799 - for the
distribution of the Troops serving
under your Presidency for Garrison
and Detachments - The impor-
-tance of many of the Posts described
in that General Order being, in your
opinion

diminished or annihilated,
in consequence of the entire change
which the Territories lately ceded by
the Mexican has made in your fron-
-tier, we approve of your determi-
-nation on the 31st December 1800,
that those Posts only should be
supplied with Grain and Provisi-
-ons which appear to be insepa-
-rable from the general protection
of the Dominions under your Pre-
-sidency. It was at the same time
your declared intention to go into
a consideration of the furthest
Posts to be retained, with all fea-
-sible expedition; but as we have
not been advised of your further
proceedings herein, and having
reason to think that a Number
of Garrisons, Ordnance Stations
&c. with their concomitant Staff
appendants,

Appointments; of greater or less magnitude, are still necessarily supported at a very great and heavy expense to the Company, we direct that a very reasonable and practicable reduction be made therein. -

163. With respect to the second branch of the subject mentioned in the Paragraphs before us, namely, the repair of Military buildings, we have to signify our approbation of your instructions to the Military Board for collecting the information necessary for your guidance, before you authorize the great expense which must necessarily be incurred in accomplishing the heavy Works and repairs which that Board had -

recommended, relative to the en-
-barkment at Masulipatam,
the Fortifications at Ganyam &c,

Service -

Having taken

into our consideration the se-
veral advice and Proceedings

f

of your Government and those received from
His Excellency the Governor of Ceylon, relative
to the misconduct, in the instances therein
mentioned, of Mr. Edward Atkinson late
Company of Grain and Provisions at
Colombo, we have resolved that Mr. Atkinson
be suspended the Company's Service. But
as he has represented he was compelled, by
the urgency of his private concerns in
this Country, to leave India without arrang-
ing his private Affairs, or adjusting his
public Accounts, which we find he has
given security to do to the amount of 25,000
Pagodas, we have been induced notwithstanding
the Opinion we entertain of his
misconduct, and the final decision which
we feel we may be under the necessity
of passing upon it, to permit him to re-
turn to Madras, and to remain there three
years for effecting these purposes, which as

soon

soon as he has done, he must be re-
-quired to return again to England. -

179

We direct that on his
-arrival, his accounts with the Com-
-pany of Lombos be finally adjusted,
-and that immediate measures be taken
for his discharging whatever balance may
appear to be due from him to the Company,
either on this or any other Account. - We
likewise direct that during his Stay in In-
-dia, he be not employed in any situation
whatever -

Para 1

Mr. William Martin Burton who has completed his Education at the Royal Military Academy at Woolwich at the Company's Expence having been reported to us properly qualified for a Commission, he proceeds this Season as a Cadet for the Artillery or Engineer Corps on your Establishment

2

We have appointed Mr. Mathew Scott Moore who takes his passage on the Helwell Country Ship an Assistant Surgeon on your Establishment and direct that you place him next in Rank to Mr. Kenneth Macaulay in the fourth Class of Assistant Surgeons, of this Season.

3

Johannes Mathewson a Seaman who served on board the Suffolk Tender belonging to Messrs Chase and Jewell and freighted by you for our Service in the East Indies having applied to us for the Wages due to him for the time he was employed in the Suffolk and it appearing from
the

the Testimony of the Man, as well as from other Information, that he was pressed on board His Majesty's Ships at the Cape of Good Hope and that his Wages had not been paid in India, we have advanced him the sum of Fifty three Pounds, five Shillings the Balance due to him according to an account which was prepared from such documents as were in our possession. A Copy of which is transmitted upon a Number in the Packet, and we desire, you will apply to Messrs Chase and Sewell Owners of the Suffolk for repayment of the abovementioned sum agreeably to the obligation they entered into as appears by your Consultations in the Military and Political Department dated the 19th June 1798.

We have resolved to appoint two Assistant Surgeons for your Presidency this Season.

Para 1 On a perusal of the voluminous
Proceedings and Papers relative to the Conduct of Major
Cart, late Commissary of Grain to the Army equipped
at your Presidency for the expedition against Mysore,
we observe that the principal Cause of the Wastage of
Grain provided for its use arose from the bad Quality of
the Gunny Bags in which the Grain was conveyed, —
stated by the Military Board at above 23% Cent
In the 10th Article of the Regulations for the Commis-
sary's Department of the 26th December 1798 it is
declared "That the Storekeeper despatching, and the
Person receiving, charge of Grain shall be held respon-
sible that it is put into good Builock Gunny Bags,
and securely packed, and the same care and respon-
sibility is to extend to all Persons in charge of Grain
with the Army or Detachments who will consequent-
ly be made accountable for every deficiency occasion-
ed by neglect or inattention to this essential part
of their Duty" —

It has been represented to us by the
late Commissary, that previous to his leaving Ma-
dras upon the Expedition he stated to the Military
Board the bad condition of the Bags, "which were
"the ordinary Bengal Gunny Bags, instead of twisted
"Bags which are commonly employed throughout
the Country for the like purpose and which were
invariably used for the supply of the Army in former
"Campaigns," that he personally exhibited to the
Board a Muster of the Bags furnished, at the
same time protesting against all Responsibility
on that score. Major Hart's Statement of the bad
condition of the Gunny Bags is fully corroborated
by Colonel Wellesley, Close, and other Officers. We
cannot upon this occasion refrain from expressing
great surprise that no Enquiry has been instituted
as to the Cause of the defective State of the -
Gunny Bags, and which might have eventually
been productive of the most fatal Consequences to
the Service. We therefore direct that this Enquiry
be immediately instituted, that, agreeably to the
Regulation

Regulation above recited, the Person or Persons entrusted with the provision of the Gunny Bags maybe made accountable for every deficiency occasioned by Neglect or inattention to this essential Duty. This Enquiry is the more necessary as it appears that you granted to the Military Board the fullest latitude for the provision of the best procurable Gunnies and when it is considered that the Expedition against Mysore was in contemplation as early a period as the Month of June 1798 and measures were ordered to be taken for equipping the Army for the Field at this early period, we are naturally led to suppose that by proper Exertions Gunny Bags of a superior and proper Quality might easily have been obtained.

3 We have resolved that Mr George Flint who proceeded to Bengal a Cadet for the Infantry of the Season 1800 be removed to the Madras Cavalry and rank the youngest Cadet therein. The Governor General in Council will direct Mr Flint to take the earliest Opportunity of proceeding

to his Duty at your Presidency.
